

## Hospitality

# The Geelong Hotel

Geelong Hotel 52 2

The Geelong Hotel, also known as The Yarra St Hotel, is an old Geelong institution which has been reinvented with a fresh interior fit out. The old paint was scraped from the canvas and the developers started again introducing lots of recycled materials, warm lighting, texture and outdoor dining.

Based in the heart of the Geelong CBD and only 3 blocks from the waterfront the Geelong Hotel has set a new benchmark for hospitality in Victoria's leading regional city.

With the luxury of free parking at the rear (weekends and evenings), the Geelong Hotel is only a stones throw from Geelong's premier shopping precinct including Westfield Shopping Centre and Market Square.

Decrolux worked with the Architect, [Nathan Porter](#), from Ballarat in Victoria on the design stage of the project. We supplied our [M14 Downlights](#) and our [K2.0 Mount Ring](#) and [NEO K3.0 Mount Rings](#) for the project.

You can check out more details on The Geelong Hotel's website: [Geelong Hotel](#)
