

Decrolux Panel BLAIZE/ CREST Surface Mount Kit

The BLAIZE LED Panel Light range is at the leading edge of commercial lighting. Suitable for surface mounting, recessed or suspended. Using the Surface Mount Frame is ideal for situations where flush mounting is difficult. These include shall ceiling cavities, or mechanical services and wiring is obstructing the space.

Simply mount the base on the ceiling, insert the BLAIZE or CREST Panel Light, and screw the end plate on. The finished result is a clean, subtle light which sits 50mm below the ceiling.
