INFINITY 14W
LED Strip Light CRI95

The INFINITY LED Strip Series is a neat, unobtrusive means to layered lighting. The 12mm strip fits into most nooks and crannies, whilst providing your home or work space with a gorgeous glow. Perfect for spaces with intimate settings and low light requirements, applications could include soft lighting under bench tops, behind a bar and receded in tight cavities in walls and ceilings to animate dark spaces with light. The 14W LED Strip utilises the latest generation SMD 2216 Chipset and features 12mm width strip with offset parallel LED rows and angled cutting-points.
