

VERTEX MK-II 450W

Sports Floodlight

Classic Series

Proven. Quality. Customisable

The VERTEX Floodlights are designed for flexibility in high output situations. The MK-II 450W Floodlight is suitable for mounting heights of up to 25 metres.

The versatility of the VERTEX range makes it suitable for use as a floodlight and also as a stadium light. The asymmetric forward throw allows for greater light cover in large areas. Often used for lighting sporting arenas such as tennis and basketball courts, and also football and rugby stadiums.
